EXAM PROFESSIONAL DATA ENGINEER TOPIC 1 QUESTION 259 DISCUSSION

Actual exam question from Google's Professional Data Engineer

Question #: 259

Topic #: 1

[\[All Professional Data Engineer Questions\]](#)

Your business users need a way to clean and prepare data before using the data for analysis. Your business users are less technically savvy and prefer to work with graphical user interfaces to define their transformations. After the data has been transformed, the business users want to perform their analysis directly in a spreadsheet. You need to recommend a solution that they can use. What should you do?

- A. Use Dataprep to clean the data, and write the results to BigQuery. Analyze the data by using Connected Sheets.
- B. Use Dataprep to clean the data, and write the results to BigQuery. Analyze the data by using Looker Studio.
- C. Use Dataflow to clean the data, and write the results to BigQuery. Analyze the data by using Connected Sheets.
- D. Use Dataflow to clean the data, and write the results to BigQuery. Analyze the data by using Looker Studio.
